

January was a big month for us as we kicked off a 12-week series in which we will be discussing some of the foundational aspects of Grace Harbor. We will be discussing our core theological beliefs, our values, and our vision for the church. This is a crucial step for us to take with our group as it doubles as an orientation for any who desire to be members of our church; now and in the future.

We have been able to share what we believe God is calling us to in the multiplication of disciples, communities (small groups), and churches. We are praying even now about how we can be generous with our resources to see more churches planted in the future!

Again, this is very crucial and exciting stage for us. Be praying as we press on through it and for our people to continue to seek clarity in their commitment with us for the future!
